

**PHOENIX
CHILDREN'S
Hospital**

Melvin L. Cohen, MD 36th Annual
Pediatric Update 2013

Feb. 25 through 28, 2013
Ritz-Carlton, Phoenix, Arizona

HOSTED BY PHOENIX CHILDREN'S HOSPITAL for the past 36 years, Pediatric Update offers physicians from across the country the opportunity to learn the latest evidence-based practices in pediatric medicine. This event welcomes hundreds of pediatricians from throughout the United States who recognize and value this opportunity for continuing medical education

COURSE OBJECTIVE

Pediatric Update 2013 features nationally prominent faculty, presenting topics that highlight the most recent advances and current issues in pediatrics. The program is designed for practicing pediatricians, other primary care physicians and pediatric nurse practitioners to increase their knowledge in the following subspecialty areas: Cardiology, Dermatology, Developmental Pediatrics, Endocrinology, General Pediatrics, Gastroenterology, Infectious Disease, Information Technology, Integrative Medicine, Otolaryngology, Plastic Surgery, Psychiatry, and Surgery/Trauma. This course will combine lectures and workshops with question and answer sessions to allow the opportunity for interaction with faculty members.

SETTING

The Ritz-Carlton offers a luxury experience in a relaxed, urban surrounding. 325 days of sunshine each year create ideal conditions to enjoy the area attractions. Located about 8 miles from Sky Harbor Airport (a 15 to 20 minute drive), the hotel is near more than 60 upscale shopping and dining venues, all a convenient stroll away. A limited number of guest rooms are being held at the Ritz-Carlton for a reduced rate of \$219 per night, plus an occupancy tax of 13.27%. Please plan to reserve your guest room well in advance. To learn more about The Ritz-Carlton, Phoenix, visit their website at www.ritzcarlton.com/phoenix.

**ABOUT PHOENIX
CHILDREN'S HOSPITAL**

Phoenix Children's Hospital, ranked in U.S. News & World Report's Best Children's Hospitals, is Arizona's only licensed children's hospital, providing world-class inpatient, outpatient, trauma, emergency, and urgent care to children and families in Arizona and throughout the Southwest. As one of the largest children's hospitals in the country with 465 licensed beds, Phoenix Children's provides care across nearly 50 pediatric specialties. The Hospital is poised for continued growth in quality patient care, research and medical education. For more information about the Hospital, visit www.phoenixchildrens.com.

COURSE CREDIT

Phoenix Children's Hospital is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide Continuing Medical Education for physicians.

Phoenix Children's Hospital designates this live activity for a maximum of *17.3 AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

MAINTENANCE of CERTIFICATION (MOC) PART TWO

An application for MOC Part Two credits has been submitted to the American Board of Pediatrics (ABP). Further details will follow.

Faculty

Mitchell Cohen, MD, FACC, FHRS

*Medical Staff Section Chief, Pediatric Cardiology
Director of Pediatric Electrophysiology and Pacing
Phoenix Children's Hospital
Arizona Pediatric Cardiology Consultants
Phoenix, Arizona
Clinical Associate Professor of Pediatrics
University of Arizona School of Medicine
Tucson, Arizona*

Paul Croarkin, DO

*Senior Associate Consultant
Department of Psychiatry and Psychology
Mayo Clinic
Assistant Professor of Psychiatry
Mayo Clinic College of Medicine
Rochester, Minnesota*

Ronald Hansen, MD

*Division Chief, Dermatology
Phoenix Children's Hospital
Phoenix, Arizona
Professor of Medicine, Pediatrics and Dermatology
University of Arizona Health Science Center
Tucson, Arizona
Mayo Clinic, Consultant, Dermatology
Scottsdale, Arizona*

Marcia Hogeling, MD

*Pediatric Dermatologist
Department of Dermatology
Phoenix Children's Hospital
Phoenix, Arizona*

Tieraona Low Dog, MD

*Fellowship Director
Arizona Center for Integrative Medicine
Clinical Assistant Professor of Medicine
University of Arizona Health Sciences
Tucson, Arizona*

Hilary McClafferty, MD, FAAP

*Founder of the Center for Women
and Children's Integrative Medicine
Chapel Hill, North Carolina
AAP Section on Complementary and
Integrative Medicine Executive Committee Member
Assistant Fellowship Director
Arizona Center for Integrative Medicine
University of Arizona College of Medicine
Tucson, Arizona*

Don McClellan, MD

*Pediatric Endocrinologist
Division Chief, Endocrinology
Phoenix Children's Hospital
Phoenix, Arizona*

Tamir Miloh, MD

*Academic Division Chief Pediatric Gastroenterology
Director, Liver Transplantation Program
Phoenix Children's Hospital
Phoenix, Arizona
Associate Professor of Pediatrics
Mayo Clinic College of Medicine
Associate Professor of Pediatrics
University of Arizona College of Medicine
Tucson, Arizona*

Bruce Morgenstern, MD

*Division Chief, Nephrology
Medical Director, Continuing Medical Education
Phoenix Children's Hospital
Phoenix, Arizona
Professor of Pediatrics
University of Arizona College of Medicine
Tucson, Arizona
Associate Professor of Pediatrics
Mayo Clinic College of Medicine*

David Notrica, MD, FACS, FAAP

*Trauma Medical Director
Phoenix Children's Hospital
Phoenix, Arizona
Pediatric Surgeon, Pediatric Surgeons of Phoenix
Phoenix, Arizona
Clinical Assistant Professor of Surgery
University of Arizona College of Medicine
Tucson, Arizona*

Stephen Pophal, MD, FACC

*Division Chief, Pediatric Cardiology
Phoenix Children's Medical Group
Phoenix Children's Hospital
Phoenix, Arizona*

Harper Price, MD, FAAD, FAAP

*Fellowship Director and Associate Chief, Department
of Dermatology
Phoenix Children's Hospital
Phoenix, Arizona
Instructor in Dermatology
Mayo Clinic College of Medicine*

William Raszka, MD

*Pediatric Infectious Disease Specialist, Fletcher Allen
Professor, University of Vermont College of Medicine
Vermont Children's Hospital at Fletcher Allen
Children's Specialty Center
Burlington, Vermont*

Scott Schraff, MD

*Division Chief, Pediatric Otolaryngology
Phoenix Children's Hospital
Phoenix, Arizona
Adjunct Assistant Professor, Department of
Otolaryngology
Mayo Clinic College of Medicine*

Steven Shukan, MD

*General Pediatrician
Summit Camp Health Center Director
Hope for Haiti Physician
Naples, Florida*

Davinder Singh, MD

*Assistant Professor of Plastic Surgery
Mayo School of Medicine
Scottsdale, Arizona
Chief, Division of Plastic Surgery
Phoenix Children's Hospital
Attending Surgeon, Barrow Children's Cleft and
Craniofacial Center
Phoenix, Arizona*

Vinay Vaidya, MD

*Vice President and Chief Medical Information Officer
Phoenix Children's Hospital
Phoenix, Arizona*

Robert Voigt, MD

*Professor of Pediatrics
Baylor College of Medicine
Developmental Pediatrician
Meyer Center for Developmental Pediatrics
Texas Children's Clinical Care Center
Houston, Texas*

Jeffrey Weiss, MD

*General Pediatrician and Hospitalist
Phoenix Children's Hospital
Phoenix, Arizona
AAP Committee on Injury, Violence and Poison
Prevention
Clinical Professor of Pediatrics
University of Arizona College of Medicine
Tucson, Arizona*

Monday, February 25

7 - 8 a.m. Breakfast Buffet

7:30 a.m. Breakfast Workshops

Don McClellan, MD & Tamir Miloh, MD

Pediatric Obesity: Sweet Kids/Fat Livers

(repeat on Tuesday)

As a result of attending this presentation, participants should be able to:

- identify key diagnostic features of type 2 diabetes in children and adolescents
- recognize the co-morbidities of obesity in children and adolescents
- recognize the prevalence and risk factors for non alcoholic fatty liver in children (NAFLD 2)
- discuss the differential diagnosis, workup and management of children with NAFLD

Hilary McClafferty, MD, FAAP

Introduction to Mind-Body Medicine: Tools for Clinical Practice

As a result of attending this presentation, participants should be able to:

- discuss three evidence-based mind-body medicine techniques applicable in pediatric practice
- recognize clinical settings where the use of mind-body medicine techniques can be safely applied

Ronald Hansen, MD & Marcia Hogeling, MD

Hemangiomas and Vascular Malformations

As a result of attending this presentation, participants should be able to:

- review propranolol for the treatment of infantile hemangioma
- recognize the most common types of vascular malformations
- discuss multidisciplinary approach to managing vascular malformations

8:30 a.m. Bruce Morgenstern, MD

Welcome and Introduction

8:40 a.m. William Raszka, MD

Going With the Flow: Diagnosis, Treatment and Prevention of Urinary Tract Infections (UTI) In Young Children

As a result of attending this presentation, participants should be able to:

- review risk categories for UTI

- describe criteria for the diagnosis of UTI
- compare and contrast current recommendations with past recommendations
- identify children in whom imaging studies are indicated

9:20 a.m. Hilary McClafferty, MD, FAAP

An Integrative Approach to ADHD

As a result of attending this presentation, participants should be able to:

- describe the elements of a comprehensive integrative medicine approach to ADHD
- prioritize an integrative medicine approach to selected patients with ADHD in a case-based format

10 a.m. Break

10:20 a.m. Scott Schraff, MD

Dysphagia: Why a Multidisciplinary Approach is Needed

As a result of attending this presentation, participants should be able to:

- outline the causes of dysphagia and discuss the workup of dysphagia in children
- use a treatment algorithm for dysphagia and explain why a multidisciplinary approach is needed

11 a.m. Harper Price, MD, FAAD, FAAP

Acne, New Concepts and Controversies

As a result of attending this presentation, participants should be able to:

- review new literature and trends for acne therapy in the pediatric population

11:40 a.m. William Raszka, MD

Getting To the Point: Vaccine Issues in 2012

As a result of attending this presentation, participants should be able to:

- review reasons for vaccine deferment
- describe the epidemiology of vaccine preventable diseases
- compare and contrast vaccine schedules
- discuss new indications or changes in vaccine schedules

Tuesday, February 26

7 - 8 a.m. Breakfast Buffet

7:30 a.m. Breakfast Workshops

Vinay Vaidya, MD

Electronic Health Records: How Can We Improve Safety and Efficiency?

As a result of attending this presentation, participants should be able to:

- explain the role of electronic health records in clinical decision support
- recognize how electronic health records can enhance patient safety

Tieraona Low Dog, MD

The Role of Herbal Medicine in Pediatrics

As a result of attending this presentation, participants should be able to:

- describe the use of herbal products in the United States
- discuss the safety and benefit for herbal remedies commonly used in the pediatric population
- describe the key components of the dietary supplement facts label as it pertains to herbs and herbal extracts
- identify authoritative resources in obtaining unbiased information for assessing safety and effectiveness of herbal remedies

Don McClellan, MD & Tamir Miloh, MD

Pediatric Obesity: Sweet Kids/Fat Livers (repeat from Monday)

As a result of attending this presentation, participants should be able to:

- identify key diagnostic features of type 2 diabetes in children and adolescents
- recognize the co-morbidities of obesity in children and adolescents
- recognize the prevalence and risk factors for non alcoholic fatty liver in children (NAFLD 2)
- discuss the differential diagnosis, workup and management of children with NAFLD

8:40 a.m. William Raszka, MD

Flim, Flam and Phlegm: Diagnosis and Treatment of Community Acquired Pneumonia (CAP) in Healthy Children

As a result of attending this presentation, participants should be able to:

- review the indications for diagnostic testing in patients with signs and

symptoms of LRTI

- describe therapeutic strategies for children with CAP
- discuss management of complicated pneumonias

9:20 a.m. Hilary McClafferty, MD, FAAP
Pediatric Integrative Medicine: Looking Forward

As a result of attending this presentation, participants should be able to:

- define integrative medicine
- describe the evolution of the field of pediatric integrative medicine in the United States
- identify clinical settings in which evidence-based pediatric integrative medicine is being widely used

10 a.m. Break

10:20 a.m. Scott Schraff, MD
Pediatric Head and Neck Masses: When to Worry About Lumps

As a result of attending this presentation, participants should be able to:

- discuss the clinical signs and symptoms of neck masses in the pediatric patient
- discuss the workup of head and neck masses in children
- use a treatment algorithm for neck masses and give guidance on when to refer the patient to a specialist

11 a.m. Jeffrey Weiss, MD
Talking to Families about Preventing Injuries

As a result of attending this presentation, participants should be able to:

- counsel families about drowning prevention (swim lessons, pool fences)
- counsel families about high risk teen driving (night driving, teen passengers, distractions, seatbelts)
- apply the Social Learning Theory model in counseling aimed at true behavior change

11:40 a.m. William Raszka, MD
What Would Jack Do? Emerging Infectious Disease Threats

As a result of attending this presentation, participants should be able to:

- describe the epidemiology of new (in the US) infections
- review the epidemiology, diagnosis and treatment of infections associated with

Wednesday, February 27

7 - 8 a.m. Breakfast Buffet

7:30 a.m. Breakfast Workshops

Paul Croarkin, DO

Case Presentations of Pediatric Mood Disorders

As a result of attending this presentation, participants should be able to:

- discuss screening, identification and management of depressive disorders and bipolar disorder in children and adolescents (this will be accomplished with interactive discussion and video vignettes)
- demonstrate an increased awareness, comfort and ability in screening and managing suicidality in a primary setting

Robert Voigt, MD

Pediatric Diagnosis and Management of Autism Spectrum Disorders

As a result of attending this presentation, participants should be able to:

- recognize autism spectrum disorders within the spectrum and continuum of developmental-behavioral disorders, not just a simple checklist of behaviors
- describe the developmental and behavioral profiles of children with autism and Asperger syndrome
- define “pervasive developmental disorder, not otherwise specified”
- discuss the proposed changes in autism diagnosis in the upcoming DSM-V
- recommend evidence-based behavioral, therapeutic, special educational and medical interventions for children with autism spectrum disorders
- apply a cost-effective, yet comprehensive approach to laboratory workup of children with autism spectrum disorders

Mitchell Cohen, MD, FACC, FHRS

ECG Reading and When to Really Worry

As a result of attending this presentation, participants should be able to:

- recognize abnormal EKGs which may identify children at risk for sudden cardiac death

8:40 a.m. David Notrica, MD, FACS, FAAP *Chest Injury for the Urgent Care Physician*

As a result of attending this presentation, participants should be able to:

- review the physiology of chest injury and pneumothorax types
- discuss which chest injuries can be safely discharged
- review changes in clavicle fracture management

9:20 a.m. Paul Croarkin, DO

Managing Pediatric Mood Disorders in a Primary Care Setting

As a result of attending this presentation, participants should be able to:

- demonstrate increased knowledge regarding the epidemiology, phenomenology and treatments of depressive disorders and bipolar disorders
- demonstrate increased competency in basic management strategies (including psychosocial interventions, pharmacotherapy and referrals) for pediatric mood disorders

10 a.m. Break

10:20 a.m. Robert Voigt, MD

Screens Have Holes: Pediatric Neurodevelopmental Assessment

As a result of attending this presentation, participants should be able to:

- define and differentiate developmental screening, surveillance and evaluation
- describe the processes that underlie problems in development: developmental delay, dissociation and deviation
- identify patterns of developmental delay - static, acute and progressive - understand how these patterns affect medical work-up and recommendations for therapy
- perform clinical pediatric neurodevelopmental assessments utilizing a developmental history and neurodevelopmental examination

11 a.m. David Notrica, MD, FACS, FAAP *Surgical Management of Fecal Incontinence and Intractable Constipation*

As a result of attending this presentation, participants should be able to:

- explain the etiologies and workup of fecal incontinence
- review the child’s right to “social continence”
- recognize options for failure medical management of constipation

11:40 a.m. Mitchell Cohen, MD, FACC, FHRS *A Practical Approach to Screening for Sudden Cardiac Death*

As a result of attending this presentation, participants should be able to:

- recognize the cardiovascular causes of sudden cardiac death
- identify limitations of current sports screening forms
- explain subtle findings that support a patient at risk for cardiovascular arrhythmias

Thursday, February 28

7 - 8 a.m. Breakfast Buffet

7:30 a.m. Breakfast Workshops

Steven Shukan, MD

***Initial Medical Response – Haiti, January 2010
“Flying by the Seat of One’s Pants”***

As a result of attending this presentation, participants should be able to:

- express the devastation encountered by the medical team upon arrival in Haiti
- describe what was required of the first medical personnel on the scene and recognize the resilience of the Haitian people
- express pride in being American
- describe a young Haitian boy’s “lesson to be learned”

Robert Voigt, MD

Cases in Developmental-Behavioral Pediatrics

As a result of attending this presentation, participants should be able to:

- adopt a clinical pediatric developmental assessment process that focuses on developmental history and neurodevelopmental examination rather than screening and checklists
- diagnose common developmental-behavioral conditions (cerebral palsy, intellectual disability, ADHD, autism spectrum disorders) using this process

Stephen Pophal, MD, FACC

Common Congenital Heart Defects in Children: How to Diagnose Them and When to Refer for Nonsurgical Intervention

As a result of attending this presentation, participants should be able to:

- discuss the most common heart lesions in children that require nonsurgical intervention and when they are repaired

8:40 a.m. Davinder Singh, MD

Craniofacial Anomalies: Management in the Newborn Period

As a result of attending this presentation, participants should be able to:

- describe team effort in caring for newborns with craniofacial anomalies
- recall the timeline for staged reconstruction of craniofacial anomalies

9:20 a.m. Stephen Pophal, MD, FACC

New Approaches to Nonsurgical Interventions in Congenital Heart Disease (CHD)

As a result of attending this presentation, participants should be able to:

- identify the most common congenital heart lesions that are repaired non surgically and gain a basic understanding of how they are repaired
- describe the routine follow-up after nonsurgical/catheter based repairs of CHD

10 a.m. Break

10:20 a.m. Robert Voigt, MD

Beyond Checklists: Making Developmental-Behavioral Diagnoses

As a result of attending this presentation, participants should be able to:

- discuss the basic pediatric neurodevelopmental principles that underlie the spectrum and continuum of developmental-behavioral disorders
- describe the spectrum of developmental disabilities from mild to severe within each stream (motor, cognitive, behavior) of development
- describe the continuum of developmental disabilities across developmental streams and the importance of identifying associated developmental and/or behavioral co-morbidities
- formulate comprehensive developmental/behavioral diagnoses within the spectrum and continuum of developmental behavioral disorders

11 a.m. Davinder Singh, MD

Acute Management and Long Term Growth Consequences

As a result of attending this presentation, participants should be able to:

- review indications and timing of surgical intervention for pediatric facial fractures
- recognize the effect of trauma on facial growth

11:40 a.m. Paul Croarkin, DO

Identification and Management of Suicidality in Children and Adolescents

As a result of attending this presentation, participants should be able to:

- recall the epidemiology, identification and risk factors associated with suicidality
- demonstrate increased competency in the screening and management of suicidality in a primary care setting

Evening Reception & Hospitality Suite

Join us

Tuesday, February 26th, from 6 to 9:00pm at The Ritz-Carlton.

Relax poolside and enjoy the entertainment! A delightful selection of hors d'oeuvres, wine and cocktails will be served.

HOSPITALITY SUITE

Spouses and other guests are invited to visit the Hospitality Suite on Monday, Tuesday and Wednesday from 8 to 11:30 a.m. Continental breakfast will be served.

PARKING

Daytime parking at the Ritz-Carlton is complimentary. Overnight parking is \$29.00 per night (we recommend overnight guests use a taxi service rather than car rental). Overflow parking is available in the Esplanade parking garage at \$14.00 per day. The Biltmore parking lot, located directly across from the Ritz-Carlton, may also be used for overflow parking at no charge. The Ritz-Carlton valet service will be available to direct you and provide options for parking if needed.

Registration

SEATING IS LIMITED AND SUBJECT TO AVAILABILITY- EARLY REGISTRATION IS ENCOURAGED

The fee to attend Pediatric Update is \$575 for practicing physicians and \$450 for retired physicians, nurses, residents and other allied health professionals. Those who register for the course and reserve a room through the Phoenix Children's Hospital-Pediatric Update guest room block at Ritz-Carlton, prior to 12/31/2012, will receive a course registration discount of \$50. The registration fee includes tuition, breakfast each morning, refreshments during the meeting and two tickets for the Reception on Tuesday evening.

Presentations/Syllabus material will be available on the Phoenix Children's Hospital Website at www.phoenixchildrens.com – thumb drives will be distributed to each registrant upon check in at the conference registration desk. If you wish to purchase a printed syllabus for the main course, one will be provided upon check in for a \$40 fee to cover the cost of printing. Please indicate that you wish to purchase a printed copy of the syllabus on your course registration form.

If you wish to bring additional guests to the Reception, please include \$60 in your tuition for each additional person.

If your spouse or guest plans to attend the Breakfast Buffet for registered participants, please include an additional \$60 in your tuition fee for each spouse or guest.

The registration and information desk will be open from 5 to 7 PM on Sunday, February 24 (for those who wish to check in early) and daily throughout the conference.

The full fee is payable upon registration. Please make checks payable to: **Pediatric Update 2013** (ALL FEES IN US CURRENCY).

In case of emergency, cancellation of your registration will be accepted up to two weeks prior to the meeting date, with a refund of your registration fees, less a \$50 processing charge. Registration fees will not be refunded for cancellations received within two weeks of the conference.

Course registrants will have the opportunity to participate in workshops during breakfast. Upon receipt of your registration a workshop form will be sent to you. **Please make your workshop selections and return by FAX: (602) 933-0806** at your earliest convenience.

Registration is also available online at the following address:
